

ACKNOWLEDGEMENTS

I would like to extend my sincere gratitude to my supervisor, Dr W. Schmid for his guidance, tolerance, great understanding and concern during the whole period of carrying out this work. I wish to express my thanks to Mr F. Javaheri of Mount Makulu Research Station for his constructive criticism.

May I also extend my thanks to Mr P. Miller and Mr R. Dean of Lilayi and Ellensdale Farms respectively, for accepting to set aside part of their fields for my research work and all material and moral support they rendered to me.

I wish to express my thanks to Mr F. Lupia of Mount Makulu Herbarium for helping me with the identification of some weeds and Mr K. Chipampe of Crop Science Department, for soil analysis.

To my graduate colleagues Mathias Kanyemba, George Chitalu, Catherine Mkangama(Mrs) and Kenwood Kamanga, I am heartily grateful for all they meant to my stay here in Zambia.

My sincere gratitude goes to SACCAR/GTZ for having accorded me the fellowship to study this Masters programme, and my employers in Tanzania, the Ministry of Agriculture and Livestock Development for granting me the study leave.

LIST OF TABLES

	Page
1 Site specification	12
2 Crop husbandry practices carried out	13
3 Weeds present in soyabeans (no weeding treatment) at Lilayi Farm	17
4 Development of weed cover (percent) under different weed control treatments at Lilayi Farm	19
5 Development of crop cover (percent) under different weed control treatments at Lilayi Farm	22
6 Effect of pre-emergence herbicides on weeds in soyabeans at Lilayi Farm	24
7 Effect of post-emergence herbicides on weeds in soyabeans at Lilayi Farm	25
8 Effect of different weed control treatments on yield of dry soyabeans at Lilayi Farm	27
9 Weeds present in soyabeans (no weeding treatment) at Ellensdale Farm	29
10 Development of weed cover (percent) under different weed control treatments at Ellensdale Farm	31
11 Development of crop cover (percent) under different weed control treatments at Ellensdale Farm	34
12 Effect of pre-emergence herbicides on weeds in soyabeans at Ellensdale Farm	36
13 Effect of post-emergence herbicides on weeds in soyabeans at Ellensdale Farm	37
14 Effect of different weed control treatments on yield of dry soyabeans at Ellensdale Farm	39
